1. Executive Summary

1.1 Purpose of the RFP

The Puerto Rico Department of Health (PRDoH) Puerto Rico Medicaid Program (PRMP) issues this Request for Proposals (RFP) to define an RFP, detailed response requirements, and minimum contract requirements; solicit responses; and outline the PRMP’s process for evaluating responses and selecting a contractor to provide printing and mailing services for Medicaid beneficiaries.

Through this RFP, the PRMP seeks to procure necessary services at the most favorable and competitive prices, and to give all qualified vendors an opportunity to do business with the PRMP as contractors, subcontractors, or suppliers.

Additional detail regarding this solicitation can be found in subsequent sections of this RFP. If vendors are interested and able to meet these requirements, the Commonwealth of Puerto Rico (Commonwealth) appreciates and welcomes a proposal.

1.2 Location

The PRMP central office is located at:

World Plaza Building
268 Luis Muñoz Rivera Avenue
Suite 501
San Juan, Puerto Rico 00918

1.3 RFP Timeline

The schedule of events for this RFP is detailed in the table below. All dates after the proposal submission due date are anticipatory. The PRMP may change this schedule at any time. If the PRMP changes the schedule before the technical proposal opens, it will do so through an announcement on the PRDoH website (<https://www.salud.gov.pr/CMS/21>), Medicaid website (<https://medicaid.pr.gov/Home/AvisosPublicos/>), or via email from the solicitation coordinator.

The announcement will be followed by an amendment to this RFP, also available through the PRDoH website or via email from the solicitation coordinator. It is each prospective vendor’s responsibility to check the PRDoH website for current information regarding this RFP and its schedule of events through the award of the contract.

2. Background and Overview of Existing Programs and Services

2.1 PRMP

PRDoH is the State Medicaid Agency (SMA) within the Commonwealth of Puerto Rico. Within PRDoH, the PRMP is responsible for the management of the Medicaid Program and the Puerto Rico Medicaid Enterprise System (PRMES), both of which are multi-vendor, multi-agency environments. The Puerto Rico Health Insurance Administration Act (PRHIA) created the Administración de Seguros de Salud (ASES), which has a Memorandum of Understanding (MOU) with the PRMP and is responsible for contracting with, and monitoring services provided by, the Managed Care Organizations (MCOs) and other carriers.

The PRMES encompasses the Puerto Rico Medicaid Management Information System (PRMMIS), Provider Enrollment Portal (PEP), Eligibility and Enrollment (E&E) system known as Medicaid Information Technology Initiative, Third Generation (MEDITI3G), the Commonwealth's Health Information Exchange (HIE), and the staff, vendors, and interfaces supporting the PRMES.

2.1.1 Beneficiaries

There are over 1.5 million beneficiaries in the Medicaid program, and nearly 300,000 beneficiaries are dually eligible for Medicaid and Medicare. Approximately 1,700 individuals enroll in Medicaid each month. MEDITI3G is the PRMP's eligibility determination system used for Medicaid eligibility determination and verification. The PRMP currently contracts with a vendor to provide all necessary mailing outreach with Medicaid beneficiaries.

2.2 Generation of Printing and Mailing Orders

The sections below describe a sampling of the as-is environment for printing and mailing services. The sections below describe the as-is environment including the critical activities and relevant stakeholders that support printing and mailing services either directly or indirectly. The as-is environment is documented in this **Section 2: Background and Overview of Existing Programs and Services** so that vendors can understand how printing and mailing orders are generated in the current environment to incorporate potential solutions in their responses to this RFP, including vendor's responses to the **Attachment F: Outcomes Traceability Matrix (OTM)**.

2.2.1 Creation of Medicaid Beneficiary Files

Medicaid beneficiary files contain all relevant beneficiary information related to Medicaid eligibility and enrollment (E&E). The Medicaid beneficiary file contains beneficiary demographic information as well as other E&E information. Beneficiaries have options for applying for admission into the Medicaid program, including applying in person, applying at a regional office, or sending an application via mail or through the web portal. Once the beneficiary's personal

information has been validated by the regional office case worker, the beneficiary's personal file is created in MEDITI3G.

2.2.2 Updating Beneficiary Information

Beneficiaries may request updates to their information at any time during their eligibility period. The information requiring updates can range from demographic information to changes of circumstances. Any requested update can be made at the corresponding regional office, via mail, through the contact center, or during the recertification process. The PRMP case workers are responsible for reviewing and updating all requested updates to beneficiary information in the MEDITI3G system. Beneficiaries may also add or update information through the MEDITI3G portal.

2.2.3 Printing and Mailing Order Sent to Vendor

All notices attached to a beneficiary are generated by the MEDITI3G system. Each day the E&E system vendor extracts a file report from the MEDITI3G system and then sends it to the printing and mailing services vendor via a standard file transfer protocol site (SFTPS). The export from MEDITI3G is delivered to the printing and services vendor as a PDF. The printing and mailing order issued by MEDITI3G must include the beneficiary's name, mailing address, the notice to be printed and mailed, and any other relevant information necessary to support printing and mailing operations. The file is then sent to the printing and mailing vendor for further validation, printing, and mailing.

3. General Instructions

3.1 Scope

The PRMP seeks to engage a contractor to provide printing and mailing services for Medicaid beneficiary notices.

The printing and mailing services vendor will support the PRMP by providing at a minimum the following services:

- Validation of beneficiary mailing information
- Proactive flagging of incorrect beneficiary mailing information and return to the PRMP
- Printing of beneficiary mailing material
- Mailing of beneficiary materials through the USPS
- Initial collection, triaging, and decommissioning of returned beneficiary mail
- Reporting on printing and mailing quality performance as needed and as defined by the deliverables included in the Deliverables Dictionary
- Meeting or exceeding the outcomes specified in the OTM

3.2 Contract Duration

The PRMP targets a contract start date for the printing and mailing service in May 2023 . The contract is based on two years with one optional two-year extension (potential for four years total). During the optional years, the PRMP may execute contracts for printing and mailing services that span one or multiple months. Contract award is contingent upon the Centers for Medicare & Medicaid Services (CMS) and PRDoH approval of the contract and associated funding over the contract term. The PRMP anticipates the need to execute contract amendments up to the close of the contract or up to the time the contract is terminated (whichever is sooner). Each contract amendment would be reflective solely of those costs detailed within the proposal response unless otherwise approved by PRDoH.

3.3 Nondiscrimination

No person shall be excluded from participation in, be denied benefits of, or be otherwise subjected to discrimination in the performance of a contract pursuant to this RFP or in the employment practices of the contractor on the grounds of handicap or disability, age, race, creed, color, religion, sex, national origin, or any other classification protected by federal or local Puerto Rico laws. The contractor pursuant to this RFP shall, upon request, show proof of such nondiscrimination and shall post in conspicuous places, available to all employees and applicants, notices of nondiscrimination.

3.4 RFP Communications

The PRMP has assigned the following RFP identification number that must be referenced in all communications regarding this RFP:

2022-PRMP-EE-Printing-Mailing-001

Unauthorized contact about this RFP with employees or officials of Puerto Rico except as detailed below may result in disqualification from consideration under this procurement process.

Vendors must direct communications concerning this RFP to the following person designated as the solicitation coordinator using the email address for all solicitation communications:

Elizabeth Otero Martinez: elizabeth.otero@salud.pr.gov

Only the PRMP's official written responses and communications with vendors are binding with regards to this RFP. Oral communications between a PRMP official and one or more vendors are unofficial and nonbinding.

Vendors must help ensure that the PRMP receives all questions and comments via email, including questions and requests for clarification, no later than the questions submission deadline detailed in **1.3: RFP Timeline**.

Vendors must assume the risk of the method of dispatching any communication or response to the PRMP. The PRMP assumes no responsibility for delays or delivery failures resulting from the vendor's method of dispatch. Actual or digital "postmarking" of a communication or response to the PRMP by a specified deadline is not a substitute for the PRMP's actual receipt of a communication or response.

The PRMP will convey all official responses and communications related to this RFP to the vendors from whom the PRMP has received a Notice of Intent to Respond.

The PRMP reserves the right to determine, at its sole discretion, the method of conveying official, written responses and communications related to this RFP. Such written communications may be transmitted by mail, hand-delivery, facsimile, electronic mail, internet posting, or any other means deemed reasonable by the PRMP.

The PRMP reserves the right to determine, at its sole discretion, the appropriateness and adequacy of responses to written comments, questions, and requests related to this RFP. The PRMP's official, written responses will constitute an amendment of this RFP.

Any data or factual information provided by the PRMP (in this RFP, an RFP amendment, or any other communication relating to this RFP) is for informational purposes only. The PRMP will make reasonable efforts to help ensure the accuracy of such data or information; however, the vendor is obliged to independently verify any data or information provided by the PRMP. The PRMP expressly disclaims the accuracy of any information or data that it provides to vendors.

Vendors with a handicap or disability may receive accommodations relating to the communication of this RFP and participation in the RFP process. Vendors may contact the solicitation coordinator to request such reasonable accommodation.

3.5 Vendors Required Review and Waiver of Objections

Each vendor should carefully review this RFP, including but not limited to, attachments, appendices, and any amendments, for questions, comments, defects, objections, or any other matter requiring clarification or correction (collectively called "questions and comments").

Any vendor having questions and comments concerning this RFP must provide them in writing to the PRMP no later than the vendor written questions submission deadline detailed in **1.3: RFP Timeline**.

Challenges must be submitted using the form and according to the instructions in Appendix 5: Terms for Filing a Review of this RFP. The party adversely affected by a decision may, according to 3 L.P.R.A Section 9672, within a term of 20 days from the deposit in the federal mail or email notifying the award of the auction, file a motion for reconsideration with the agency. In the alternative, you can submit a request for review to the General Services Administration Review Board or the appealing entity that corresponds in law or regulation, within a term of 20 calendar days, from the deposit in the federal mail or email notifying the award of the auction.

In auction challenge cases, the party adversely affected by an order or final resolution of the agency, the General Services Administration Review Board, or the appealing entity of auctions, as the case may be, may submit an application of review before the Court of Appeals within a term of 20 days, counted from the file of the copy of the notification of the order or final resolution of the agency, the aforementioned General Services Administration Review Board or the appealing entity, or within the applicable term of 20 calendar days after the expiration of the term provided by Section 3.19 of this Act.

Challenges based on any objection to the RFP shall be considered waived and invalid if the objection has not been submitted as instructed in Appendix 5: Terms for Filing a Review within twenty (20) days of the Notice of Award. Refer to **1.3: RFP Timeline** for the expected posting date for the Notice of Award.

3.6 Notice of Intent to Respond

Vendors should submit to the solicitation coordinator a Notice of Intent to Respond (in the form of a simple email or other written communication). Such notice should include the following information:

- The business or individual's name (as appropriate)
- A contact person's name and title
- The contact person's mailing address, telephone number, facsimile number, and email address

A Notice of Intent to Respond creates no obligation and is not a prerequisite for submitting a response; however, it is helpful to facilitate communications of any RFP amendments or other notices and communications relating to this RFP. Regardless of the submission of a Notice of Intent to Respond, vendors are responsible for monitoring the official posting site of the RFP for any amendments or notifications that are posted.

3.7 Proposal Submission

A vendor must help ensure that the PRMP receives a response no later than the submission deadline time and date detailed in **1.3: RFP Timeline**. The PRMP will not accept late responses, and a vendor's failure to submit a response before the deadline will result in disqualification of the response as outlined in **3.10: The PRMP Right of Rejection**. It is the responsibility of the vendor to determine any additional security requirements with respect to packaging and delivery to the PRMP. Vendors should be mindful of any potential delays due to security screening, weather, mail delays, pandemic restrictions, and orders of stay or other filing delays whether foreseeable or unforeseeable.

3.8 Amendments to the RFP

The PRMP, at its sole discretion, may amend this RFP in writing at any time prior to the contract award. However, prior to any such amendment, the PRMP will consider whether it would negatively impact the ability of potential vendors to meet the submission deadline and revise the RFP Schedule of Events if deemed appropriate. If an RFP amendment is issued, the PRMP will convey it to vendors who submitted a Notice of Intent to Respond. A response must address the final RFP (including its attachments) as amended.

3.9 RFP Cancellation

The PRMP reserves the right, at its sole discretion, to cancel the RFP or to cancel and reissue this RFP in accordance with applicable laws and regulations at any given time.

3.10 The PRMP Right of Rejection

Subject to applicable laws and regulations, the PRMP reserves the right to reject, at its sole discretion, any and all responses.

The PRMP will reject any response that does not meet the mandatory specifications listed in **Attachment E: Mandatory Specifications**.

The PRMP may deem as non-responsive and reject any response that does not comply with all terms, conditions, and performance requirements of this RFP. Notwithstanding the foregoing, the PRMP reserves the right to waive, at its sole discretion, minor variances from full compliance with this RFP. If the PRMP waives variances in a response, such waiver shall not modify the RFP requirements or excuse the vendor from full compliance, and the PRMP may hold any resulting vendor to strict compliance with this RFP.

3.11 Proposal Submittal and Instructions

3.11.1 Economy of Preparation

Proposals should be prepared simply and economically, providing a concise description of the items requested within this RFP. Emphasis should be placed on completeness and clarity of the content.

3.11.2 Incurring Cost

Neither the PRMP nor any of its employees or officers shall be held liable for any expenses incurred by any vendor responding to this RFP, including but not limited to preparation, delivery, or travel.

3.11.3 Proposal Format

These instructions describe the required format for a vendor's bid proposal. The vendor may include any additional information it believes is relevant. The vendor should leverage the format, contents, and structure in the RFP attachments. Moreover, the structure of each attachment provides the vendor with a template for an in-line response to the RFP. At times, the use of Microsoft Excel will be necessary in order to respond. An identifiable tab sheet should precede each section of the proposal, and each proposal should follow the format outlined below. All pages, except preprinted technical inserts, should be sequentially numbered.

The vendor should include the following information in the attachments:

- A response to any applicable section of the RFP narrative located in **3: General Instructions**
- A response to any content requested within the attachments/response templates

Each proposal should include a response to every request for information in this RFP whether the request requires a simple "yes" or "no" or requires a detailed explanation. When a detailed response is required, simply repeating the RFP's requirement and agreeing to comply may not be an acceptable response and may cause the proposal to be disqualified.

As detailed in **5.4: Failure to Meet Mandatory Specifications**, the mandatory specifications must be met by the vendor as a part of the submitted proposal. As detailed in **Attachment E: Mandatory Specifications** and **5.4: Failure to Meet Mandatory Specifications**, the mandatory specifications must be met by the vendor as a part of the submitted proposal. Failure on the part of the vendor to meet any of the mandatory specifications may result in disqualification of the proposal, at the sole discretion of the PRMP. Mandatory specifications are not scored but are reviewed on a "pass" or "fail" basis.

Vendors are advised to limit marketing statements and positioning to the area(s) of the RFP applicable to those statement(s) and not include duplicative or otherwise repetitive statements throughout their responses. The vendor's in-line responses, inclusive of the text of the PRMP's specifications, should not exceed the page count noted in each attachment and should overall be limited to the minimum number of pages needed to respond. Vendors must choose a similarly sized typeface (generally 11 point for text and 9 point for tables) for the PRMP's requirements and not utilize smaller than 9-point fonts to work within this page limit restriction. The page limit counts the front and back of each sheet as separate pages. This page limit will not apply to the following RFP components:

- **Attachment C: Vendor Qualifications and Experience**, the following section only:
 - Section 3: Business Disputes

- **Attachment D: Vendor Organization and Staffing**, the following section only:
 - Section 2.1: Resumes
 - Section 2.2 References

Each proposal should contain the following tabbed sections outlined below in the in-line response. In general, where assumptions are noted, vendors are permitted to add a section to the attachment templates that allow for assumptions to be noted. Assumptions should not be provided instead of exceptions.

Vendor responses should be sure to address both sections noted in the table below, as well as those sections' related subsections noted in the RFP.

3.11.4 Two-Part Submission

Vendors should submit proposals in two distinct parts: technical and cost. Technical proposals should not contain any cost information relating to the operation. Cost proposals should contain all cost information and should be sealed in a separate envelope from the technical proposal to facilitate a secondary cost proposal opening. In addition to printed copies of the technical and cost proposals, the vendor should submit two electronic copies of its technical proposal (PDF and Microsoft Excel, as appropriate) and cost proposal (Microsoft Excel). Please submit separate universal serial buses (USBs), or other electronic media, if necessary, for both the technical and cost proposals for a total of four USBs (two technical proposals and two cost proposals). Please submit one printed copy of both the technical and cost proposals and help ensure the technical and cost proposals are packaged separately.

Proposals should be submitted to the mailing address below:

Puerto Rico Department of Health
 Medicaid Program, ATTN: Elizabeth Otero Martinez
 268 Luis Muñoz Rivera Ave.
 World Plaza – 5th Floor
 San Juan, Puerto Rico 00918

3.11.5 Response Reference

The vendor's response should clearly reference how the information provided applies to the RFP request. For example, listing the RFP number and restating the RFP request as a header in the proposal would be considered a clear reference.

3.12 Changes to Proposals

A vendor is responsible for any and all response errors and/or omissions. A vendor is not allowed to alter or revise response documents after the proposal submission deadline date and time detailed in **1.3: RFP Timeline**.

3.13 Withdrawal of Proposals

A vendor may withdraw a submitted response at any time before the submission deadline date and time detailed in **1.3: RFP Timeline** by submitting a written request signed by an authorized vendor representative. After withdrawing a response, a vendor may submit another response at any time before the submission deadline. After the submission deadline, a vendor may only withdraw all or a portion of a response where the enforcement of the response would impose an unconscionable hardship on the vendor.

3.14 Multiple Proposals

A vendor must not submit multiple responses in different forms and or scopes and cannot submit separate proposals as a principal or subcontractor. If a vendor submits more than one proposal, the PRMP has the right to reject the proposals, as outlined in **3.10: The PRMP Right of Rejection**.

4. Statement of Work (SOW)

4.1 Services Required

The printing and mailing services vendor will perform all needed operational tasks as shown in the tables below. As part of these tasks, the printing and mailing services vendor will be responsible for the creation and support of all deliverables described in **Appendix 2: Deliverables Dictionary**. All tasks and work products must be compatible with the PRMP standards including but not limited to Program Management Office (PgMO) Plan Aids. The PgMO Plan Aids will be shared with the awarded vendor.

The printing and mailing services vendor is not required to conduct operations in Puerto Rico but must be located and operate in the United States and its territories. The printing and mailing services vendor is expected to physically pick up returned mail from the PRMP. Regardless of the location of operations, the timeliness of mail delivery must at least meet the amount of time it would take for mail to be delivered locally in Puerto Rico. Additionally, the PRMP will only cover costs for standard postage for Medicaid mail and will not cover any additional postage costs.

The contractor must perform, at a minimum, all necessary services to satisfy the outcomes and requirements outlined in **Attachment F: Outcomes Traceability Matrix**. The service area tables below detail some of the tasks that the vendor is expected to perform; however, the vendor is expected to perform additional tasks to satisfy the outcomes and requirements specified in this section and **Attachment F: Outcomes Traceability Matrix**. The following table contains the terms and their definitions specific to the service area tables found in this section; the table can also be found in **Appendix 8: Acronyms, Abbreviations, and Terms Glossary**.

4.2 Required Terms and Conditions

A draft contract is provided in **Appendix 7: Proforma Contract Draft**, and it details the PRMP’s non-negotiable terms and conditions, including tax requirements with which the contractor must comply in Puerto Rico, as well as:

- Scope of Service
- Contract Period
- Payment Terms

The proforma contract represents an example of the contract document that the successful vendor must sign. The proforma contract included in this RFP is an example contract and does not include all final requirements. The final terms of the contract will be discussed with the successful vendor during contract negotiations. A copy of a draft Business Associate Agreement (BAA) is also included within **Appendix 7: Proforma Contract Draft**.

5. Evaluation of Offers

5.1 Evaluation Process

Proposals will be evaluated in two parts by a committee of three or more individuals. The first evaluation will be of the technical proposal and the second is an evaluation of the cost proposal. After the evaluation of technical proposals, the evaluation committee will identify those proposals with the highest technical scores and will move these proposals forward to the second part of the RFP evaluation, the cost proposal. The number of proposals that the evaluation committee moves forward from technical evaluations to cost evaluations will be relative to the total number of proposals submitted and subject to the discretion of the evaluation committee. Those proposals that are not moved forward from technical evaluations will not have their cost proposals scored. The evaluation committee reserves the right to revisit proposals if a technical and/or cost deficiency is discovered during the evaluation.

The vendor who demonstrates that they meet all the mandatory specifications will be selected to move forward to the cost proposal evaluations, and subsequent to cost proposal evaluation the vendor who demonstrates the highest overall point score of all eligible vendors shall be awarded the contract.

5.2 Evaluation Criteria

Proposals will be evaluated based on criteria in the solicitation and information contained in the proposals submitted in response to the solicitation. Proposals will be initially screened to assess whether the proposal meets or exceeds the mandatory specifications listed in **Attachment E: Mandatory Specifications**. Proposals passing the initial review will then be eligible to be evaluated and scored across five global criteria, with each receiving a percentage of the overall total (1,050) points. The technical evaluation will be based upon the point allocations designated below for a total of 750 of the 1,050 points. Cost represents 300 of the 1,050 total points.

If oral presentations are not held, the technical evaluation will be based upon the point allocations of the remainder of the criteria for a total of 700 of 1,000 total points. Cost will remain 300 of the 1,000 total points.

Table 8: Scoring Allocations

Scoring Area	Points Allocated
Global Criterion 1: Vendor Qualifications and Experience	150 Points Possible
Global Criterion 2: Vendor Organization and Staffing	100 Points Possible
Global Criterion 3: Approach to SOW and Outcomes	450 Points Possible
Global Criterion 4: Cost Proposal	300 Points Possible
Global Criterion 5: Oral Presentations	50 Points Possible
Total Points Possible	1,050 Points

5.3 Clarifications and Corrections

If the solicitation coordinator determines that a response failed to meet one or more of the mandatory specifications, the proposal evaluation team may review the response. The team may decide to, at its sole discretion:

- Determine that the response adequately meets RFP requirements for further evaluation
- Request clarifications or corrections for consideration before further evaluation
- Determine the response to be non-responsive to the RFP and reject it

5.4 Failure to Meet Mandatory Specifications

Vendors must meet or exceed all mandatory specifications outlined in **Attachment E: Mandatory Specifications** for the rest of their proposal to be scored against the technical requirements of this RFP. Proposals failing to meet one or more mandatory specifications of this RFP may be disqualified and may not have the remainder of their technical or cost proposals evaluated.

5.5 Technical Proposal Opening and Evaluation

The PRMP will document and open the technical proposals received by the bid opening deadline. All proposals that pass the pre-screening for compliance with the mandatory specifications will be provided to the evaluation committee for technical evaluation. The evaluation committee will review the technical proposals, assign points where appropriate, and document the justifications for those proposals that should move forward to cost proposal evaluations. Technical proposals will be posted for public inspection after technical and cost evaluations are complete, and the Award Notification has been posted. See **6.2: Contract Award Process** for additional details.

5.6 Cost Proposal Opening and Evaluation

All cost bids received will be opened after the evaluation of technical proposals is complete. Cost bids for disqualified proposals or proposals that were otherwise not selected to move forward to cost evaluations will be opened for record-keeping purposes only and will not be evaluated or considered. Once opened, the cost proposals will be provided to the evaluation committee for cost evaluation.

The PRMP reserves the right to disqualify a proposal based upon deficiencies in the technical proposal even after the cost evaluation.

The evaluation committee will review the cost proposals, assign points, and make a final recommendation to the PRMP.

5.7 Requests for More Information

The PRMP may request clarifications or oral presentations of vendors participating in the RFP process. See **1.3: RFP Timeline** for details on the timing of oral presentations. During oral

presentations, vendors may not alter or add to their submitted proposal but only clarify information. Oral presentations will be the opportunity for the vendor to demonstrate its understanding of meeting the goals and objectives of the RFP. A description of the materials and information to be presented will be provided before the oral presentations.

Oral presentations may be held using virtual platforms like Microsoft Teams or Zoom due to social distance and space limitations.

If the meeting is held on-premises, vendors should expect it to be held at:

The PRMP Central Office

World Plaza Building 5th floor

268 Muñoz Rivera Avenue

San Juan, PR 00918

The vendor should be prepared to coordinate any connectivity needs for its oral presentation before the oral presentation, if required.

5.8 Reference Checks

The PRMP may conduct reference checks to verify and validate the past performance of the vendor and its proposed subcontractors. Refer to Vendor References in **Attachment C: Vendor Qualifications and Experience** for the list of vendor references.

6. Award of Contract

This section provides the vendor with information on the process for contract award, the process for contract clarification and negotiations, the disclosure of responses to the public, and failure to negotiate.

6.1 Clarifications and Negotiations

The PRMP reserves the right to award a contract based on initial responses received; therefore, each response shall contain the vendor's best terms and conditions from a technical and cost standpoint. The PRMP reserves the right to conduct clarifications or negotiations with one or more vendors. All communications, clarifications, and negotiations shall be conducted in a manner that supports fairness in response improvement.

6.1.1 Clarifications

The PRMP may identify areas of a response that may require further clarification or areas in which it is apparent that there may have been miscommunications or misunderstandings as to the PRMP's specifications or requirements. The PRMP may seek to clarify those issues identified during one or multiple clarification rounds. Each clarification sought by the PRMP may be unique to an individual respondent, provided that the process is conducted in a manner that supports fairness in response improvement.

6.1.2 Negotiations

The PRMP may elect to negotiate with a vendor by requesting revised responses, negotiating costs, or finalizing contract terms and conditions. The PRMP reserves the right to conduct multiple negotiation rounds or no negotiations at all. Additionally, the PRMP may conduct target pricing and other goods or services level negotiations. Target pricing may be based on considerations such as current pricing, market considerations, benchmarks, budget availability, or other methods that do not reveal individual vendor pricing. During target price negotiations, vendors are not obligated to reduce their pricing to target prices, but no vendor is allowed to increase prices.

6.1.3 Failure to Negotiate

If the PRMP determines that it is unable to successfully negotiate terms and conditions of a contract with the apparent best-evaluated vendor, then the PRMP reserves the right to bypass the apparent best-ranked vendor and enter terms and conditions contract negotiations with the next apparent best-ranked vendor.

6.2 Contract Award Process

The solicitation coordinator will submit the proposal evaluation committee determinations and scores to the PRMP executive director for consideration along with any other relevant information that might be available and pertinent to the contract award.

The PRMP executive director will review the apparent best-ranked evaluated vendor. If the PRMP executive director determines that the PRMP is going to award the contract to a vendor other than the one receiving the highest evaluation process score, then the executive director will provide written justification and obtain the written approval of the PRDoH secretary.

After identification of the awarded vendor, the PRMP will issue a Notice of Award, identifying the apparent best-ranked response and making the RFP files available for public inspection at the time and date specified in **1.3: RFP Timeline**.

The Notice of Award shall not create rights, interests, or claims of entitlement in either the apparent best-ranked vendor or any other vendor.

The vendor identified as offering the apparent best-ranked response must sign a contract drawn by the PRMP pursuant to this RFP. The contract shall be similar to that detailed within **Appendix 7: Proforma Contract Draft**. The vendor must sign the contract by the contract signature deadline detailed in **1.3: RFP Timeline**. If the vendor fails to provide the signed contract by this deadline, the PRMP may determine that the vendor is non-responsive to this RFP and reject the response.

Notwithstanding the foregoing, the PRMP may, at its sole discretion, entertain limited terms and conditions or pricing negotiations before contract signing and, as a result, revise the contract terms and conditions or performance requirements in the PRMP's best interests, provided that such revision of terms and conditions or performance requirements shall not materially affect the basis of response evaluations or negatively impact the competitive nature of the RFP and contractor selection process.

If the PRMP determines that a proposal is non-responsive and rejects it after opening cost proposals, the solicitation coordinator will re-calculate scores for each remaining responsive cost proposal to determine (or re-determine) the apparent best-ranked proposal.

6.3 Contract Approval and Contract Payments

After contract award, the vendor that is awarded the contract must submit all appropriate documentation to the PRDoH contract office.

This RFP and its vendor selection process do not obligate the PRMP and do not create rights, interests, or claims of entitlement in either the vendor with the apparent best-evaluated response or any other vendor. The PRMP obligations pursuant to a contract award shall begin only after the contract is signed by the PRMP's agency head and the vendor and after the contract is approved by all other PRMP officials as required by applicable laws and regulations, including the Fiscal Oversight Management Board (FOMB), if applicable.

No payment will be obligated or made until the relevant contract is approved as required by applicable statutes and rules of Puerto Rico, is registered with the Comptroller's Office, and distributed by the Contract Office of PRDoH.

The PRMP shall not be liable for payment of any type associated with the contract resulting from this RFP (or any amendment thereof) or responsible for any goods delivered or services

rendered by the vendor, even goods delivered, or services rendered in good faith and even if the vendor is orally directed to proceed with the delivery of goods or the rendering of services, if it occurs before the contract effective date or after the contract term.

All payments in relation to this procurement will be made in accordance with the Payment Terms and Conditions of the contract resulting from this RFP.

6.4 Performance

Upon request of the Commonwealth, the contractor shall meet to discuss performance or provide contract performance updates to help ensure the proper performance of this contract. The Commonwealth may consider the contractor's performance under this contract and compliance with law and rule to determine whether to continue this contract, whether to suspend the contractor from doing future business with the Commonwealth for a specified period, or whether the contractor can be considered responsible on specific future contract opportunities.

Time is of the essence with respect to the contractor's performance of this contract. The contractor shall continue to fulfil its obligations while any dispute concerning this contract is being resolved unless otherwise directed by the Commonwealth.

The SLAs and Performance Standards contained herein cover the SOW stipulated in this RFP and the resulting contract. The contractor should consistently meet or exceed performance specifications classified as SLAs between the contractor and the PRMP, and is subject to specific requirements, identified in **Appendix 3: Service-Level Agreements (SLAs) and Performance Standards**, which contains expectations related to SLAs and implications of meeting versus failing to meet the SLAs, as applicable. In addition, **Appendix 3: Service-Level Agreements (SLAs) and Performance Standards** contains the minimum service levels required for the duration of the contract.

SLAs and associated Key Performance Indicators (KPIs) may be added or adjusted by mutual agreement during the term of the contract to align with business objectives, organizational objectives, and technological changes. The contractor will not be liable for any failed SLAs caused by circumstances beyond its control and that could not be avoided or mitigated through the exercise of prudence and ordinary care, provided that the contractor immediately notifies the PRMP in writing, takes all steps necessary to minimize the effect of such circumstances, and resumes its performance of the services in accordance with the SLAs as soon as possible.

The contractor should deduct any amount due as a result of the failure to meet SLAs from invoices, and those deductions should be made from the invoice total dollar amount. Each invoice should also be accompanied by an SLA Report detailing the status of SLAs and those SLAs that were triggered within the invoice period. Each invoice should detail the total invoice amount, the amount deducted due to the associated contract remedy, and the final invoice amount less the contract remedy. The PRMP reserves the right to seek any other remedies under the contract.

7. Attachments

Attachment A: Cost Proposal

Instructions: Attachment A: Cost Proposal is a Microsoft Excel spreadsheet that includes instructions for vendors to submit a cost proposal. Vendors may not reformat the PRMP's cost workbook. The cost proposal must be submitted separately from the technical proposal. **Be advised, the PRMP may reject any proposal with a cost workbook that is reformatted and/or not separately sealed.**

The vendor's cost proposal should provide sufficiently detailed information to allow the PRMP to assess the reasonableness of the vendor's cost. The vendor's cost proposal should be inclusive and complete for each area identified in **Attachment A: Cost Proposal – Cost Workbook**. The vendor should refer to **4.1: Services Required** and **Attachment F: Outcomes Traceability Matrix** to inform the inputs into the cost proposal. The cost proposal should be built assuming that the printing and mailing services contract will be active for at least two years. Vendors should note that the PRMP's goal is to compare total cost to deliver the scope of work in this RFP; therefore, the costs detailed in **Attachment A: Cost Proposal – Cost Workbook** should reflect an estimated price per year to provide all necessary services as part of this RFP and the resulting contract based on the expected average monthly volume of printing and mailing and special requests

Costs that are not specified by the vendor in the cost workbook will not be considered nor allowed during the contract term. All assumptions regarding the vendor's cost proposal should be included in the identified tab in **Attachment A: Cost Proposal – Cost Workbook**.

For more details and instructions on the cost proposal, please refer to the **Attachment A: Cost Proposal – Cost Workbook** Microsoft Excel spreadsheet.

All materials submitted to the PRMP in response to this RFP shall become the property of the Government of Puerto Rico. Selection or rejection of a response does not affect this right. By submitting a response, a vendor acknowledges and accepts that the full response contents and associated documents will become open to public inspection in accordance with the laws of Puerto Rico. If a vendor determines there is a “trade secret” contained in the proposal, the vendor must send a written notification to the solicitation coordinator when submitting the proposal to help prevent public disclosure of the “trade secret.” A redacted version of the technical proposal must be provided to the PRMP at the time of proposal submission if there are “trade secrets” the proposing vendor wishes to not be made public.

A redacted proposal should be provided separately from the technical and cost envelopes and should be in addition to (not in place of) the actual technical or cost proposal. Upon completion of response evaluations, indicated by public release of a Notice of Award, the responses, and associated materials will be open for review on the website or at an alternative

location as defined by the PRMP. Any “trade secrets” notified by the vendor to the solicitation coordinator will be excluded from public release.

Attachment D: Vendor Organization and Staffing

This section will provide instructions to vendors to submit their approach to staffing operations for printing and mailing services using **Attachment D: Vendor Organization and Staffing**.

Instructions: Staffing strategies are to be employed by the vendor to help ensure all outcomes, requirements, and service levels are met to the satisfaction of the PRMP. The evaluation of the vendor's staffing approach shall be based on the ability of the vendor to satisfy the outcomes and requirements stated in this RFP. Therefore, the vendor should present detailed information regarding the qualifications, experience, and expertise of key staff and an Initial Staffing Plan.

For ease of formatting and evaluation, **Attachment D: Vendor Organization and Staffing** provides the required outline for the vendor's response to staffing. The vendor's response to the following should not exceed 20 pages, excluding key personnel resumes and the forms provided in this attachment.

1. Initial Staffing Plan

As part of the vendor's proposal response, the vendor should provide an Initial Staffing Plan. In addition to the requirements described in **Attachment E: Mandatory Specifications**, the vendor's narrative description of its proposed Initial Staffing Plan should include the following:

- A description of the vendor's proposed team that exhibits the vendor's ability and capability to provide knowledgeable, skilled, and experienced personnel to accomplish the scope of work as described in this RFP.
- Organization charts for the operation showing both the vendor staff and their relationship to the PRMP staff that will be required for the delivery of printing and mailing services. The organization chart should denote all key staff and non-key positions with a summary of each key staff's responsibilities.
- Identification of subcontractor staff, if applicable.

<Response>

2. Key Staff, Resumes, and References

Key staff consist of the vendor's core management team for this engagement. These resources are responsible for providing leadership and creating the standards and processes required for the printing and mailing services. Resumes for key staff named in the vendor's proposal should indicate the staff's role and demonstrate how each staff member's experience and qualifications will contribute to this contractor's success.

These roles that the PRMP expects the vendor to propose are:

Key Staff

- Account manager
- Operations manager

2.1 Resumes

The PRMP considers the key staff resumes as an indicator of the vendor’s understanding of the skillsets required for each staffing area and their ability to perform them. The vendor should complete the table below and include resumes of all the individuals who are being initially proposed. Each resume must not exceed three pages and must demonstrate experience relevant to the position proposed. If applicable, resumes should include work performed under the vendor’s corporate experience, and the specific functions performed on such engagements. Copies of diplomas, licenses, and credentials are encouraged but are not required, and are not subject to the three-page limit.

Table 15: Proposed Key Staff and Roles

<Response>

2.2 Key Staff References

The vendor should provide two references for each proposed key staff. The reference should be able to confirm that the staff has successfully demonstrated performing tasks commensurate to the tasks they will perform in alignment with this RFP and the resulting contract.

The name of the person to be contacted, phone number, client name, address, a brief description of work, and date (month and year) of employment should be given for each reference. These references should be able to attest to the candidate’s specific qualifications. The reference given should be a person within a client’s organization and not a coworker or a contact within the vendor’s organization. The PRMP may contact one or more of the references given and the reference should be aware that the PRMP may contact them for this purpose.

Vendors should use the format provided in the table below. Please repeat the rows and tables as necessary.

 - Plans for training key project resources in recovery procedures
 - Process for updating the DR/BC Plan as necessary throughout the life of the contract

The vendor should submit the DR/BC Plan within 30 business days of the contract award, and then on an annual basis and/or after any substantive changes to operational activities. Annual plans will be due the first business day of July each year.

The PRMP does not intend to hold a standing meeting with the printing and mailing services vendor to review the Operations Status Report; however, the vendor is expected to attend and participate in Operations Status Report reviews with the PRMP, at the PRMP's request. The Operations Status Report is due on the fifth of every month.

D06: Monthly Return Mail Address Validation Report

Appendix 3: SLAs and Performance Standards

The SLAs contained herein cover the SOW stipulated in this RFP and the resulting contract. The vendor should consistently meet or exceed performance specifications classified as SLAs between the contractor and the PRMP, and are subject to specific requirements, identified in **Attachment E: Mandatory Specifications**. This section of the RFP contains expectations related to SLAs and implications of meeting versus failing to meet the SLAs, as applicable. In addition, this section contains minimum service levels required for the duration of the contract.

SLAs and associated KPIs may be added or adjusted by mutual agreement during the term of the contract to align with business objectives, organizational objectives, and technological changes. The contractor will not be liable for any failed SLAs caused by circumstances beyond its control and that could not be avoided or mitigated through the exercise of prudence and ordinary care, provided that the contractor immediately notifies the PRMP in writing, takes all steps necessary to minimize the effect of such circumstances, and resumes its performance of the services in accordance with the SLAs as soon as possible.

The contractor should deduct any amount due as a result of the SLAs from its future payments, and those deductions should be made from the invoice total dollar amount. Each invoice should also be accompanied by an SLA Report detailing those SLAs that were triggered within the invoice period. Each invoice should detail the total invoice amount, the amount deducted due to the associated contract remedy, and the final invoice amount less the contract remedy. **The PRMP reserves the right to seek any other remedies under the contract.**

SLAs and Performance Standards

The KPIs used to define the following service levels are an adjunct to the performance standards. The PRMP has identified the KPIs to be key indicators of the contractor's operational performance. Failure to achieve a KPI may, at the discretion of the PRMP, result in payment reduction; failure to meet any other performance standard defined in the resulting contract is not directly tied to fiscal holdback. The PRMP reserves the right to promote any performance metric to the status of KPI.

CAP

When an SLA is not met, the vendor should submit for approval to the PRMP a written CAP no later than 10 business days from the date the PRMP requests the CAP. The PRMP will consider extensions to the 10-day timeline on a case-by-case basis. The CAP will include, at a minimum:

- Deficient SLA(s)
- A full description of the issue
- A root-cause analysis
- Impact of the issue and related risk
- A full description of the issue

- The resolution, including any failed solutions implemented before the resolution
- The proposed corrective action to avoid missing the SLA in the future

The contractor will implement the proposed corrective action only upon the PRMP approval of the CAP. Please note that the SLA-related CAPs differ from those CAPs provided in response to issues.

Performance Standards

The PRMP will monitor the vendor's performance based on the contractor's reported performance against each SLA. Each SLA presented in this RFP establishes the performance level expected by the PRMP in a given area. KPIs are identified within each SLA and are to be measured and reported each month by the contractor. Timely Operations Management Reports, including SLA performance reports, must be provided in the format agreed upon with the PRMP and received electronically no later than the fifth day of the month for the prior month's performance.

The contractor shall agree that failure to perform in accordance with established SLAs results in a loss to the PRMP. If the contractor fails to meet the SLAs and associated KPIs, the PRMP reserves the right to administer a monthly payment deduction up to 10% of the monthly invoice amount based on prior month performance violation(s), as reported timely by the vendor and confirmed by the PRMP. The PRMP, at its sole discretion, will decide to enforce the associated liquidated damages. If the PRMP chooses to not enforce liquidated damages at any given time, it does NOT set precedence for future enforcement actions, does NOT limit the PRMP's enforcement authority in any way, and does NOT imply acceptance or approval of performance below the agreed level.

II. Obligations and Activities of Business Associate

Uses and Disclosures of PHI. With respect to each use and disclosure of PHI Business Associate makes pursuant to this Agreement, or otherwise, Business Associate agrees as follows:

Business Associate agrees not to use or disclose PHI other than as permitted or required by this Agreement or as Required by Law. To the extent that a Business Associate performs any of Covered Entity’s obligations under the Privacy Rule, Business Associate will comply with the

requirements of the Privacy Rule that apply to Covered Entity in the performance of such obligation.

Business Associate agrees to mitigate, to the extent practicable, any harmful effect that is known to Business Associate of a use or disclosure of PHI by Business Associate in violation of the requirements of this Agreement.

Business Associate agrees to report to Covered Entity any use or disclosure of PHI not provided for by this Agreement of which it becomes aware.

If applicable, in accordance with 45 CFR 164.504(e)(1)(ii) and 164.308(b)(2), Business Associate agrees to enter into written agreements with any subcontractors that create, receive, maintain, or transmit Protected Health Information on behalf of Business Associate, and the terms of such agreements shall incorporate substantially similar restrictions, conditions, and requirements that apply to Business Associate through this Agreement.

At the sole cost and expense of the Covered Entity, Business Associate agrees to make available and provide Covered Entity with access to PHI to meet the requirements under 45 CFR 164.524. The obligations of Business Associate in this paragraph apply only to PHI in Designated Record Sets in Business Associate's possession or control as such term is defined at 45 CFR § 164.501. Such access shall be in a timely and reasonable manner, as agreed upon by the Parties.

At the sole cost and expense of the Covered Entity, Business Associate agrees to make any amendment(s) to PHI that Covered Entity directs or agrees to pursuant to 45 CFR 164.526 at the request of Covered Entity, in a time and manner reasonably agreed upon by the Parties. Business Associate agrees to maintain and make available, in a time and manner reasonably negotiated between the Parties, the information required for Covered Entity to respond to a request by an Individual for an accounting of disclosures of PHI, as necessary to satisfy Covered Entity's obligations under 45 CFR 164.528.

Business Associate shall report unsuccessful Security Incidents to Covered Entity upon request. Parties recognize, however, that a significant number of meaningless attempts to access, without authorization, use, disclose, modify or destroy PHI in Business Associate's systems will occur on an ongoing basis and could make a real-time reporting requirement formidable for Parties.
