This notification<sup>1</sup> has the purpose of informing interested vendors the answer to question 76 in the PDF document identified as Vendor-QA related to the Health Information Exchange Operations and Technical Services request for proposals, which was left blank. The response should read as follows:

Num.	Vendor Question	PRMP Response
76	Please describe any funding resources available to provide technical assistance, training and support to providers not affiliated with a Primary Health Center receiving 330 funds.	This RFP is focused on the establishment of an HIE in Puerto Rico that will work as a tool to connect island-wide providers to longitudinal patient records to reduce costs and burden of care and improve care quality. This resource will be made available to providers regardless of their affiliation with Primary Health Centers and 330 funds.

The document uploaded Friday 9 has been substituted to include this response to the vendor's question.
