

DEPARTMENT OF HEALTH

Puerto Rico Medicaid Program

Fourth Important Update

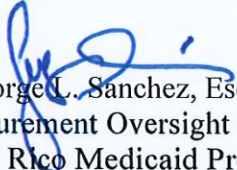

2024-PRMP-MES-EE-004

This notification¹ has the purpose of informing interested vendors of the following corrections to the Eligibility and Enrollment System Takeover request for proposals:

- Updated Appendix 7 Procurement Library to include new and missing documents (PL-025; PL-034; PL-080). See Appendix 7 Procurement Library for further information.
- Updated various tabs, cells and instructions in Attachment A – Cost Proposal. See Attachment A – Cost Proposal Amendment 1 for further information.

Regarding Attachment A – Cost Proposal Amendment 1, PRMP advises vendors to consider the guidance in the cost proposal and the QA document when developing their cost proposal. Vendors should thoroughly document any assumptions so that, as part of the cost proposal evaluation process, PRMP can validate assumptions and complete a comparative review across cost proposals. The evaluation committee's scoring of cost proposals will consider validated assumptions with the intention of comparing total costs across all applicable vendor proposals.

Vendors should consult the 2024-PRMP-MES-EE-004 QA document for additional information about changes and clarifications to the RFP and associated materials.

Jorge L. Sanchez, Esq.
Procurement Oversight Lead
Puerto Rico Medicaid Program
August 21, 2024

¹ Issued in accordance with Section 3.8 of the RFP.
