RE: Invited Vendors - Puerto Rico Medicaid Program New Congress Requirements

Dear Ms. Cruz-Romero:

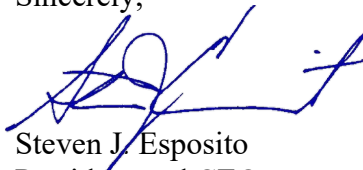

SLI Government Solutions (SLI) appreciates that you included us as one of your invited vendors to respond to your request for assistance regarding the *Puerto Rico Medicaid Program New Congress Requirements* solicitation. Unfortunately, we are not going to submit a proposal. Due to the combination of the short timeframe to respond to the solicitation and the need to supply highly specialized staff very quickly we do not believe we have the time and resources to submit a high-quality response and to secure the necessary personnel resources.

We are very disappointed about this as we are confident that, given more time, we could have met your Agency's needs. As you know, SLI delivers staff on professional services contracts in several states and commonwealths, including Puerto Rico, and possesses expertise in the areas of CMS rules and regulations, compliance, reporting, and government best practices in CMS regulated organizations. We also have good relationships with CMS and understand legislation and requirements as they relate to health and human services programs.

We sincerely appreciate your consideration of SLI's capabilities and qualifications to provide professional services staff. We hope you include SLI in any future opportunities to assist PRDoH.

If you have any questions regarding this response, please contact me at sesposito@sligov.com or call me at 480-620-5907. And again, thank you for inviting SLI to respond to this opportunity.

Sincerely,

Steven J. Esposito
President and CEO
SLI Government Solutions
