Provider Information Change Request Form

Providers are responsible for ensuring that enrollment information remains current. Providers are required to notify Puerto Rico Medicaid Program (PRMP) within 30 days of any changes in enrollment information. Failure to comply with the requirements to report changes in the provider's Medicaid enrollment information could result in the termination of the Medicaid provider's agreement.

Some changes can be submitted via this form through the Provider Secure Communication (PSC) portal, and some require a new enrollment application.

Changes via Change Request Form (no new application required)

The following changes require notification to the Provider Enrollment & Maintenance Unit (PEMU) on the *Provider Information Change Request Form* with the provider's or managing employee's signature:

- Name change
- Mail-to and pay-to address changes
- Service location address information changes are limited to corrections only, such as spelling or zip code errors. This does not include different or new service locations
- Hours of operation
- Licenses and certificate updates: ex. Clinical Laboratory Improvement Amendments (CLIA), Drug Enforcement Administration (DEA), and Controlled Substance
- Provider Specialty/Taxonomy Additions/Changes
- Changes in Groups/Individual within in a group; this includes additions and terminations. Providers must include the following information:
    - Individual within a Group/Group provider's National Provider Identifier (NPI)
    - Individual within a Group/Group provider's Medicaid ID
    - Effective/End date
- Gender
- Date of Birth
- Language
- Medicaid Surety Bond (with a copy of the bond)
- Social Security Number (SSN) or Tax ID (only if a typo has been determined). The W-9 must reflect the correct Tax-ID
- Managing Employee – Changes of general manager, business manager, administrator, director, or other individual who exercises operational or managerial control, or over directly or indirectly conducts the day-to-day operations of an institution, organization, or agency
- Changes of Ownership (CHOW) resulting in less than 100% ownership interest; to submit a change of ownership of less than 100% ownership interest, complete the Change of Ownership Form
- Enrollment Terminations

Changes Requiring a New Application

The following changes require a new enrollment application completed through the PRMP Provider Enrollment Portal (PEP):

- New service location
- Enrolling as a different provider type – Providers must submit a separate Provider Enrollment Application for each provider type
- 100% Ownership / Tax ID changes – When there is a 100% change of ownership or change in Tax ID, a new application must be completed; if there is simply a typo in the Tax ID or SSN, then the correction can be made to the existing active provider record as long as the provider submits the request in writing and includes a correct W-9
- Examples of change in ownership include, but are not limited to, the following:
  - A sole proprietorship transfers title and property to another party
  - Two or more corporate clinics or centers consolidate, and a new corporate entity is created
  - An incorporated entity merges with another incorporated entity
  - An unincorporated entity (sole proprietorship or partnership) becomes incorporated
  - Change of name and Tax ID number associated with the provider's submitted enrollment application (e.g., Employer Identification Number)

One form is required for each Medicaid ID.
